YOUR IMMEDIATE CARE CENTERS™ from GEORGIA EMERGENCY ASSOCIATES

MANUFACTURING

Stay in control.
Your healthcare costs.
Your employees. Your business.

Whether you already have an established occupational health and safety program, or you are just getting started, Your Immediate Care Centers™ can provide services and guidance that help your company control costs and optimize your employee health and safety.

Pre-employment Services, Testing & Monitoring

Before the job offer, be assured that your applicants are able to perform expected job duties in the safest manner possible.

Services Offered:

- Pre-employment Physicals
- Pre-employment Drug Screening
- Vision Testing
- Respirator Fit Testing
- * Custom and on-site services available upon request

We offer a full range of health testing, diagnostics and monitoring to ensure your company is OSHA-compliant, and that your employees are healthy and able to perform their job duties in the safest manner possible.

Services Offered:

- Annual Physical Evaluations
- Random Drug Testing
- Breath Alcohol Testing
- Hearing Conservation
- Pulmonary Function Studies
- Flu Shots & Immunizations
- Job-Specific Medical Surveillance
- On-the-Job Injuries

Workplace Injury Care

“We take the worry out of Workers’ Compensation.”

The primary goal of the Treating Physicians at Your Immediate Care Centers™ is the return of injured employees to productive employment as efficiently and as safely as possible.

Reduced Costs – Cases seen in our urgent care setting typically cost at least 50 percent less than those directed to a hospital emergency room.

Return to Work - At each of our centers, our treating physicians follow standardized Workers’ Compensation Patient Care & Return to Work Guidelines for your industry.

Responsive Service – Our center managers and staff are experienced in Workers’ Compensation case management and are instrumental in facilitating all aspects of your employees’ care and return to work plan.

Urgent Medical Care for Non-Emergencies

We offer walk-in urgent medical care for your employees and their dependents for minor illnesses and injuries*. Urgent care visits cost a fraction of a typical visit to the hospital ER, which greatly reduces your company’s “experience rating” and can substantially lower your health coverage costs.

*See *Workplace Injury Care* information for Workers’ Compensation details.
